

***NASRO CPTED Course**

Date: May 27-29, 2015

Location: Sioux Falls, SD

The Sioux Falls Police Department, along with the SD Association of School Resource Officers (SDASRO), will be hosting a Crime Prevention Through Environmental Design (CPTED) class in Sioux Falls. The class is being put on with the assistance of the National Association of School Resource Officers (NASRO). This is a three day course scheduled for May 27-29, 2015. The class will be held on the O’Gorman campus with the initial classroom portion being at O’Gorman Jr. High School (3100 W 41st St.). The following is a description of the course provided by NASRO: “CPTED (Crime Prevention through Environmental Design) uses design, management, and activity strategies to reduce opportunities for crime to occur, to reduce fear and to improve overall safety of schools. The CPTED concept emphasizes the relationship of the physical environment, the productive use of space, and the behavior of people. Upon completion of this 24-hour course, successful completion of a written test is required to obtain a course certificate. The course will include a hands-on CPTED evaluation of a school, and attendees will be provided with tools to use on their school campus or in their associated activities with school safety.”

Due to a grant from Law Enforcement Training, the registration cost will be covered for the first 30 officers to register for the class. **If you would like to attend, please contact Officer Todd Runyan, SFPD, at trunyan@siouxfalls.org for explanation of the registration process through NASRO.**
